## WORK EXPERIENCE

### Software Developer at Sinno Technologies Limited | Remote

June 2016 — Current

- Extensive experience developing complex applications for enterprise clients, meeting strict requirements, and delivering projects on time and within budget.
- Proven ability to analyze, optimize, and refactor existing codebases to enhance performance, maintainability, and scalability.
- Demonstrated success in collaborating with cross-functional teams, fostering effective communication, and driving successful project outcomes.
- Strong problem-solving and troubleshooting skills, with the ability to quickly identify and resolve issues throughout the development lifecycle.

### Project Manager at The nth Creative | Remote

*JavaScript, Node, MongoDB, Project Management, Leadership*

August 2024 – August 2024

- Led a cross-functional team of five developers in the end-to-end development of a minimum viable product (MVP), ensuring alignment with project goals, timelines, and quality standards.
- Conducted thorough code reviews to enforce industry best practices, enhance code quality, and ensure maintainability, while also implementing improvements to the development workflow.
- Provided technical mentorship and support to team members, guiding them through complex problem-solving processes, troubleshooting issues, and fostering a collaborative learning environment.

- Effectively communicated project progress, challenges, and successes to stakeholders through detailed presentations, ensuring transparency and alignment with business objectives.

## **Senior SEO Specialist & Automation Developer at MacMillan Search | Remote**

*React, Django, Redis, Docker, Google Cloud Services*

April 2024 — June 2024

- Spearheaded development efforts encompassing front-end, back-end, and database architecture.
- Conceptualized, developed, and operationalized an application, progressing from ideation to minimum viable product.
- Implemented artificial intelligence solutions for automated generation of social media content from client's source material.
- Executed Project Management methodologies including daily standups, sprint planning, and deliverables oversight.
- Mentored junior team members in adhering to coding best practices.

## **Senior Front End Developer at LeaseFriendly | Halifax, NS**

*Next.js, Postgres, Docker.*

Jan 2024 – Feb 2024

- Spearheaded the initiation and establishment of the front-end codebase, setting the foundation for efficient and scalable development.
- Implemented robust linting and code quality standards, ensuring adherence to best practices.
- Orchestrated the integration of Husky for seamless Git hook, enhancing version control processes.
- Pioneered the development of reusable components within Storybook, facilitating rapid prototyping and iterative design improvements.

## **SAP ABAP Developer at IBM | Halifax, NS**

*ABAP, SAP*

September 2021 — January 2024

- Developed, optimized, and maintained ABAP code for mission-critical SAP solutions for the Department of National Defense, ensuring seamless operations and data security.
- Specialized in integrating SAP modules with external systems, streamlining processes, and improving data accuracy for large-scale military operations, including supply chain management, personnel administration, and asset tracking.
- Collaborated with cross-functional teams, including project managers, business analysts, and security experts, to translate complex military requirements into robust SAP solutions.

## **EDUCATION**

**Dalhousie University** | 2011 – 2019 MSc Industrial Eng., BEng Chemical Engineering
